

WELDABLE LINERS

ORIGINAL RHINO HYDE LINER

Used throughout the aggregate industry in discharge chutes, holding bins, turnhead liners and spouts. Rhino Hyde Liners reduce material sticking, reduce noise and provide protection for underlying steel liners.

WE DESIGN MODULAR SHAPES UP TO 4" THICK BASED ON YOUR APPROVED DRAWINGS, WHEN YOU'RE READY TO INSTALL, THERE'S NO CUTTING REQUIRED, REDUCING TIME AND STRAIN ON MAINTENANCE PERSONNEL.

CONTACT A SALES REPRESENTATIVE TO DISCUSS DUROMETER AND FORMULATION RECOMMENDATIONS.

WHAT MAKES OUR ORIGINAL WELDABLE RHINO HYDE LINER TOUGH TO BEAT:

- // Easy to install with MIG, TIG or stick welding — no holes to drill
- // Available in custom or modular shapes — no infield cutting or fabrication
- // Outstanding wear, cut and tear resistance
- // Replaces steel and rubber in most application
- // Weld plates are capped with glue-in or knock-in urethane Rhino Hyde Liner Plugs, provided with all Weldable Liners
- // Engineered drawings to best fit your application for long lasting results
- // Custom builds to your specifications
- // Reduce noise to your running applications
- // Reduce installation time

WIDTH Up to 58"	LENGTH Up to 300"	THICKNESS 5/16" to 4"	WELD PLATE CENTER DISTANCE 6" - 8"
